

## DATA SHEET

# F-Secure Anti-Virus 2008

### Sure You Can

Feel free to discover, create, share, connect and make the very most of your digital life. All you need is the spirit of adventure and a healthy PC that shrugs off online threats before they strike. F-Secure is committed to enable its customers to soar with the possibilities of the internet, letting their security worries behind to be handled by our professional service. Security should no longer be defined in terms of fear, but in terms of enablement and opportunity. In today's connected world of possibilities, why ask "Can I?" Sure You Can!

### The Solution

F-Secure® Anti-Virus™, you can open e-mail attachments and use your computer without any fear of virus infections, spyware intrusion or malicious programs that can take over your computer. F-Secure Anti-Virus has been designed to automate all key tasks required to keep your computer and data safe from viruses - it's so easy, all you have to do is install and forget about it.

### Protect Yourself Against the Unknown

Fast spreading targeted attacks, or so-called Zero-Day attacks, are a new growing problem on the Internet, designed by money-driven online criminals to get financial rewards. The latest version of F-Secure Anti-Virus comes with F-Secure DeepGuard technology that protects you against these unforeseen threats.

### Protect your Privacy with Improved Antispyware

Spyware can secretly track your surfing habits, abuse your Internet connection by sending data to a third party, profile your shopping preferences or hijack your web browser. F-Secure Anti-Virus protects your privacy by detecting and removing such software from your computer.

### The Fastest Protection with Automatic Updates

Antivirus software is only as good as the capability of antivirus software manufacturer to provide a timely cure for new virus outbreaks. The F-Secure Anti-Virus Research Team updates virus definition databases daily to ensure that customers have 24-hour protection against new, fast-spreading Internet-borne viruses. This is why F-Secure Anti-Virus products constantly rank at the top when compared with competing products.

### Key Features

#### **Protects your computer against viruses, worms and other attacks**

With daily automatically updated virus protection from the world-renowned F-Secure Data Security Laboratory and F-Secure DeepGuard technology that protects you against zero-day attacks and other future threats, you can safely use your computer, now and tomorrow.

#### **Detects and removes spyware from your computer**

F-Secure Anti-Virus removes secretly installed software from your computer, ensuring that your system is running smoothly and clean of spyware.

#### **Fastest Protection**

F-Secure is one of the leading antivirus vendors when it comes to reaction times and update delivery times during virus outbreaks.

## SURE YOU CAN

### Protection Against Zero-day Attacks and Rootkits

Zero-day attacks are a new type of threat that can break into your computer even if you have up-to-date security software installed. F-Secure DeepGuard™ detects and prevents any suspicious activity that might indicate a danger in your computer. Rootkits are also detected and removed.

### Web Traffic Scanning

Certain web sites can infect your computer even if you do not download anything from the web site. Web Traffic Scanning protects you against this problem.

### E-mail Scanning

POP3, IMAP and SMTP traffic are scanned for viruses so that you do not have to worry about infected e-mails.

### Easy to Install and Use

F-Secure Anti-Virus is extremely easy to install and use. It is highly automated so you do not have to understand the complexities of data security.

### The Fastest Protection Against New Virus Outbreaks

Immediate reaction times and fast cures during new and emerging threats ensured by F-Secure Research Team working 24 hours a day.

### Security News

News about virus outbreaks is delivered straight to your computer. This ensures that you get information about new viruses and their behavior immediately, as well as the instructions on how to avoid the infection and a confirmation whether your computer is already protected against the latest threat.

### Multiple Scanning Engines

F-Secure Anti-Virus uses multiple scanning engines, bringing you the very best in detection and disinfection. Each of the scanning engines is specialized in detecting a different type of malware. It is like having several antivirus products running in your computer at the same time!

### Intuitive Product Tutorial

Learn about product features and functions. This easy to use tutorial provides answers to many essential questions on how to use the software.

### Software in your Language

F-Secure Anti-Virus has a clear user interface, including an easily accessible electronic manual. Both the software and electronic manual are available in your language.
